

UNLESS THE WATER IS SAFER THAN THE
LAND.

3,772 people drowned last year while trying to find safety in Europe.

410 have died already in 2016.

Refugees in Europe are **stuck at borders in the freezing cold** waiting for protection. Families have been separated and **10,000 children have gone missing.**

It's time for safe routes to protection for refugees.

This week is Student Action for Refugees' Action Week. STAR will be taking a petition to 10 Downing Street in March calling for safe routes to protection for refugees. We'll also be taking along 3,772 paper boats, one for each person who drowned last year in their search for safety.

Join us in Ebor Court's Common Room from

**12.15pm — 1.15pm on Wednesday 2nd March to add
your voice to the call for change!**

Get in touch with Lorna Gledhill on 07557 982 498 or
